# ABOUT THE THEME

"Education is the manifestation of perfection already present in the man."

Swami Vivekanand

Skills development is essential for self-employment and entrepreneurship in today's globalized world. Indeed, it is the need of the hour for the economic development of the 21st Century. Skill India has laid a lot of stress on the development of skills. Even the National Education Policy 2020 proposes the revision and revamping of all aspects of the education structure.

Education undoubtedly plays an essential role in moulding a learner's personality. Education, devoid of any opportunity to nurture and enhance skills, doesn't give room for students to grow into well-rounded individuals. In addition to excelling in academics, learners need to acquire skills that will help them to enhance the physical, artistic, and emotional aspects of their life and survive in this competitive world. Skill development is powerful equipment to empower individuals and improve their social acceptance. Skills development can contribute to structural transformation and economic growth by enhancing productivity and employability. It is a comprehensive term that covers many aspects. We need to think about these aspects in terms of the kind of education provided to children. Mere covering the syllabus will not help. Learners must be aware of the importance of various skills like life skills, communication skills, effective use of e-resources, etc. There should be a transition from theory to practice.

This seminar attempts to look at how education in a knowledge society facilitates the development of skills. This type of education would focus on increasing an individual's capability for better tomorrow.

## OBJECTIVES OF THE SEMINAR

1. To enrich understanding about skill development.
2. To develop new skills leading to growth in professional or personal life.
3. To discuss the role of life skills development in preparation for life.
4. To enhance communication skills.
5. To foster the use of the mother tongue in communication skill development.
6. To impart knowledge about various e-resources.

## MAIN THEME -

"Enhancement of Skills : Transition from Theory to Practice"

## SUB THEMES

- Life skills—A Preparation For Life
- Fostering communication skills with reference to use of mother tongue
- Effective use of e resources
